...know the score with FSL

**With thousands of scoreboards installed over the past 15 years in many countries worldwide, FSL have become market leaders in electronic scoreboard technology.**

FSL is an electronics company who specialise in the design and manufacture of innovative electronic cricket scoreboards and displays for Cricket Clubs. The standard of their electronic cricket scoreboards is reflected by the prestigious international sporting venues in which they are installed, for example at the test cricket grounds of Headingley , Trent Bridge, Kent County Cricket to name but a few.

## Customised Solutions

FSL can provide a complete customised solution which not only provides spectators with the scores but additional information such as Bowlers Number, Duckwork-Lewis, how out and and umpires light. All products are manufactured at our state of the art production facility thus enabling bespoke designs and layouts to suit all customers requirements.

## Turnkey Solutions

FSL Electronics can offer a complete turnkey service. From initial scoreboard layout and design, site survey, installation of posts and framework, mounting scoreboard and fitting of security shutter.

## FREE SCOREBOARD with the Mimic Plus Advertiser

Now available a revenue generating program for your club. Running on a standard PC with a radio interface which picks up the signal from the scoreboard control console MIMIC+ has a host of features to keep your customers entertained and informed.

Can you think of 10 sponsor's who would be willing to pay your club £100 a year to get there ads displayed in the clubhouse every week. The selling, point is that this LCD screen will provide updated scores on the cricket match, so it will be a focal point within the club house.

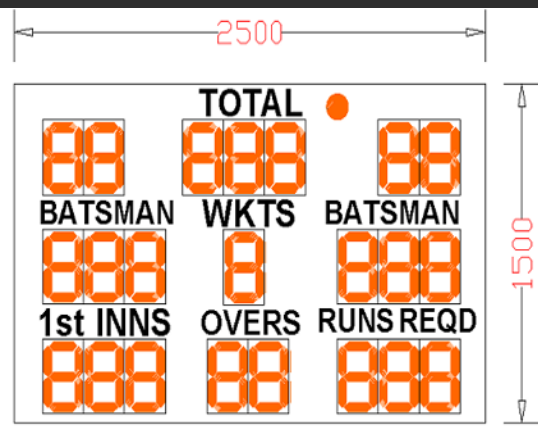

### FSL Cricket Scoreboards

FSL offer cricket scoreboard solutions from all sizes of ground from Headingley Stadium to the smallest village green. Which model you choose will depend on a number of factors including viewing angle, viewing distance, lighting conditions, availability of power and last but not least, budget.

Because FSL design and build scoreboards to order we can manufacture any shape or size to suit the need of any club big or small, custom shapes and designs to fit into apertures on new buildings or for fitting to the front of existing score boxes.
